

Report of Independent Certified Public Accountants on Compliance
With Requirements Applicable to Each Major Federal Program and
State Financial Assistance Project and on Internal Control Over Compliance
in Accordance With OMB Circular A-133, Section 215.97, *Florida Statutes*,
and Chapter 10.550, *Rules of the Auditor General* and
Schedule of Expenditures of Federal Awards and
Schedule of Expenditures of State Financial Assistance

The Distinguished Members of the
Board of County Commissioners
Honorable Pat Frank, Clerk of the Circuit Court
Honorable Rob Turner, Property Appraiser
Honorable David Gee, Sheriff
Honorable Earl Lennard, Supervisor of Elections
Honorable Doug Belden, Tax Collector
Hillsborough County, Florida

Compliance

We have audited the compliance of Hillsborough County, Florida (the County), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement*, and the requirements described in the Executive Office of the Governor's State Projects Compliance Supplement, that are applicable to each of its major federal programs and state financial assistance projects for the year ended September 30, 2009. The County's major federal programs and state financial assistance projects are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs and state financial assistance projects is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; Section 215.97, *Florida Statutes*; and Chapter 10.550, *Rules of the Auditor General*. Those standards, OMB Circular A-133, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the Auditor General*, require that we plan and perform the audit to obtain reasonable assurance about

whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program or state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs and state financial assistance projects for the year ended September 30, 2009.

Internal Control Over Compliance

The management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs and state financial assistance projects. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program or state financial assistance project in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program or state financial assistance project on a timely basis. *A significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program or a state financial assistance project such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program or state financial assistance project that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program or state financial assistance project will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards and Schedule of Expenditures of State Financial Assistance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of the County, as of and for the year ended September 30, 2009, and have issued our report dated February 12, 2010. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of expenditures of federal awards and schedule of expenditures of state financial assistance for the year ended September 30, 2009, are presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the Auditor General*, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of County management and officials, applicable federal and state agencies, and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Ernst & Young LLP

April 16, 2010, except for the Low-Income Home Energy Assistance Program (CFDA No. 93.568) the date of which is November 12, 2010.

HILLSBOROUGH COUNTY, FLORIDA
Notes to the Schedules of Expenditures of
Federal Awards and State Financial Assistance
For the fiscal year ended September 30, 2009

Note 1 - Financial Reporting Entity

The Hillsborough County (“County”) reporting entity is defined in Note 1 of the County's Basic Financial Statements. These notes provide additional information on the accompanying Schedule of Expenditures of Federal Awards and Schedule of Expenditures of State Financial Assistance. The first schedule presents expenditures related to federal awards that were provided directly by federal agencies as well as federal awards that were passed through other government agencies. The second schedule presents expenditures related to state awards that were provided directly by state agencies as well as state awards that were passed through other governmental agencies.

Note 2 - Basis of Accounting

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented in accordance with accounting principles generally accepted in the United States, as described in Note 1.C. of the County's Basic Financial Statements.

Note 3 - Major State of Florida Projects

Major projects as defined by Section 215.97, Florida Statutes, are state of Florida grant projects audited by Hillsborough County’s independent certified public accountants. Major projects for the year ended September 30, 2009 are listed by Catalog of State Financial Assistance (CSFA) Number in the Summary of Auditors’ Results section of the Schedule of Findings and Questioned Costs, which is prepared by the County’s independent certified public accountants.

Note 4 - Major Federal Programs

Major programs as defined by the U.S. Office of Management and Budget’s (OMB) Circular A-133, are federal grant programs audited by the County’s independent certified public accountants. Major programs for the year ended September 30, 2009 are listed by Catalog of Federal Domestic Assistance (CFDA) Number in the Summary of Auditors’ Results section of the Schedule of Findings and Questioned Costs, which is prepared by the County’s independent certified public accountants.

HILLSBOROUGH COUNTY, FLORIDA
Notes to the Schedules of Expenditures of
Federal Awards and State Financial Assistance
For the fiscal year ended September 30, 2009

Note 5 - Negative Figures on the Schedules of Expenditures

Negative expenditures reported in the Schedules of Expenditures of Federal Awards and State Financial Assistance may be the result of situations such as the following: (a) when required match exceeded current fiscal year expenditures; (b) a correction which reduced an expenditure in one grant and increased it in another grant or funding source; or (c) a correction of an expenditure which was originally posted in a prior fiscal year, such as the recording of a refund for goods or services not received. Although the current expenditures on a grant may be negative, the total of all expenditures on the grant is expected to be positive over its total period of performance.

Note 6 - Florida Communities Trust Reimbursements

The County sometimes receives reimbursements from the Florida Community Trust under the Florida Forever Act program (CSFA Number 52.002) for certain costs incurred for the purchase of environmentally sensitive land. These costs are presented in the Schedule of Expenditures of State Financial Assistance only if reimbursements are received during the fiscal year being reported. Reimbursements may be received in fiscal years after the year in which the expenditures were made. There were no such reimbursements received during fiscal year 2009.

Note 7 - Equipment Received From Florida Department of Community Affairs

Grants from the U.S. Department of Homeland Security (CFDA 97.067) which were passed through the Florida Department of Community Affairs, provided no equipment during fiscal year 2009.

Note 8 - State Criminal Alien Assistance Program

The County receives funds from the Department of Justice (CFDA 16.606) to reimburse some of the costs of incarcerating undocumented criminal aliens who have committed serious crimes in the United States. The expenditure is recorded on the Single Audit in the year the funds are received.

HILLSBOROUGH COUNTY, FLORIDA
Notes to the Schedules of Expenditures of
Federal Awards and State Financial Assistance
For the fiscal year ended September 30, 2008

Note 9 - Sales Tax Rebate for Professional Sports Franchise Facilities

The County receives a sales tax rebate from the state of Florida under Sections 212.20 and 288.1162, Florida Statutes, for a professional sports franchise facility. The County serves as a conduit passing the entire amount on through to the Tampa Sports Authority for debt service on their stadium bonds. Starting with fiscal year 2002, these rebates were designated by the state of Florida to be financial assistance subject to the state single audit (CSFA Number 73.016).

Note 10 - Relationship to Grant Reports

Amounts reported in the accompanying schedules are consistent with the amounts reported in separately issued final grant reports to federal, federal pass-through, state, and state pass-through grantors as of September 30, 2009.

Note 11 - Hurricane Expenditure Reimbursement on Appeal to FEMA

The County had a total of \$9,941,942 of hurricane-related expenditures reported on the Schedule of Expenditures of Federal Awards (CFDA Number 97.036) for fiscal year 2005, and an additional \$587,536 of hurricane-related expenditures reported on the schedule for fiscal year 2006. At September 30, 2009, the County is awaiting the Federal Emergency Management Agency (FEMA) Division of the U.S. Department of Homeland Security's final determinations on the \$2,665,072 in reimbursement requests currently on appeal.

Note 12 - The Department of Health and Human Services Reimbursement

The County received a reimbursement for expenditures made in fiscal year 2008 in relation to the Voting Access for Individuals with Disabilities (VOTE) program from 2004 and 2005 Grant Funds. The expenditure is recorded on the Single Audit in the year the funds are received.

HILLSBOROUGH COUNTY, FLORIDA
Notes to the Schedules of Expenditures of
Federal Awards and State Financial Assistance
For the fiscal year ended September 30, 2008

Note 13 - Re-Issuance of Single Audit Report

As a result of the subsequent review of the Single Audit Report of the County for the year ended September 30, 2009, as originally issued, it was determined that the Low-Income Home Energy Assistance Program (CFDA No. 93.568) was not audited as a major program, but should have been audited as a major program since it was not audited in either of the two previous years. As a result, this program was subsequently audited for the year ended September 30, 2009. The results of the audit are summarized in the Schedule of Findings and Questioned Costs, Section 1.

Hillsborough County, Florida

Schedule of Findings and Questioned Costs

Year Ended September 30, 2009

Part I – Summary of Auditor’s Results

Financial Statements Section

Type of auditor’s report issued (unqualified, qualified, adverse, or disclaimer):

Unqualified

Internal control over financial reporting:

Material weakness(es) identified?

_____ **Yes** X **No**

Significant deficiency(ies) identified that are not considered to be material weaknesses?

 X **Yes** _____ **None reported**

Noncompliance material to financial statements noted?

_____ **Yes** X **No**

Federal and State Awards Section

Internal control over major programs:

Material weakness(es) identified?

_____ **Yes** X **No**

Significant deficiency(ies) identified that are not considered to be material weaknesses?

_____ **Yes** X **None reported**

Type of auditor’s report issued on compliance for major programs (unqualified, qualified, adverse, or disclaimer):

Unqualified

Any audit findings disclosed that are required to be reported in accordance with Section .510(a) of OMB Circular A-133, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the Auditor General*.

_____ **Yes** X **No**

Hillsborough County, Florida

Schedule of Findings and Questioned Costs (continued)

Part I – Summary of Auditor’s Results (continued)

Identification of major programs:

Federal CFDA No.	Name of Federal Program or Cluster
14.871	Section 8 Housing Choice Vouchers
17.151	Employee Benefits Security Administration
93.600, 93.708, 93.709	Head Start Cluster
93.667	Social Services Block Grant
93.914	HIV Emergency Relief
93.044, 93.045, 93.053, 93.705,	
93.707	Aging Cluster
93.568	Low-Income Home Energy Assistance
State CSFA No.	Name of State Project
37.024	Local Government Cleanup
37.039	Statewide Surface Water Restoration
45.030	State Aid to Libraries
52.901	State Housing Initiative Program
65.010	Community Care for Elderly

Dollar threshold used to distinguish between Type A and Type B programs:

\$2,727,667 for federal programs and \$496,142 for state financial assistance projects

Auditee qualified as low-risk auditee for federal purposes pursuant to *OMB Circular A-133*?

_____ **Yes** X **No**

Hillsborough County, Florida

Schedule of Findings and Questioned Costs (continued)

Part II – Financial Statement Findings Section

This section identifies the significant deficiencies, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to the financial statements for which *Government Auditing Standards* require reporting in a Circular A-133 audit.

During our audit, we noted the following matter involving reporting and its operation that we consider to be a significant deficiency.

09-01

Capital Assets Accounting

As noted in the prior year as Item 08-01, accurate recording of capital assets, depreciation expense, and contributions is important in the financial reporting system for governments. We noted the following items related to the accounting for capital assets:

- A. The County does not have a comprehensive fixed asset sub-ledger for Water Resource Services (WRS) assets that is fully populated with all capital assets that are above and below ground, with respective condition assessments. WRS has implemented a Comprehensive Asset Management System (CAMS). The CAMS is intended to be fully populated with all capital assets that are above and below ground, with respective condition assessments. WRS has engaged outside service providers to perform inventories in an effort to capture complete information. This process is currently ongoing, and we recommend that WRS continue its focus on having CAMS fully populated and operational by the end of fiscal year 2010 in order to mitigate the existing risks of misstatement.
- B. During our audit of capital contributions related to infrastructure roadways, we noted that the standard value assigned to a segment of roadway has not had a cost analysis update nor been adjusted for inflation since 2001. As such, the cost associated with infrastructure roadway contributions are significantly understated as costs in terms of materials, labor, etc., to construct roadways have increased over time. We recommend that the County perform a study related to the cost of roadways in order to properly value infrastructure contributions.

Hillsborough County, Florida

Schedule of Findings and Questioned Costs (continued)

Part II – Financial Statement Findings Section (continued)

- C. During fiscal year 2009, construction-in-progress on certain buildings and building improvement were substantially completed and placed into service. For certain items selected for testing, we noted that the substantial completion date, or in-service date as documented in the Project Information Management System (PIMS), differed from the date utilized in the financial accounting system used to account for and calculate the related depreciation. Based on the sample tested, the difference resulted in an understatement of depreciation expense and overstatement of net assets in fiscal year 2009 of approximately \$1.5 million. We recommend that the County review the procedures and flow of information between departments as it relates to in-service dates used and documented in PIMS and the financial accounting system. These procedures should be strengthened to promote more timely communication and appropriate recording of transactions.

Management's response:

- A. WRS concurs. The original cost (estimated, if not known) for below ground assets (e.g., lines, hydrants, pump stations, etc.) have been recorded in a CAMS' test environment (for depreciation) as of December 31, 2009. WRS staff is reviewing the below-ground data to ensure completeness. The original cost (estimated, if not known) for above ground assets (e.g., plants, pumps, storage, etc.) is under development and should be recorded in the CAMS' test environment (for depreciation) during fiscal year 2010. The timely completion of this project is dependent upon availability of resources.
- B. The Public Works Department's consultant completed the data analysis process and recommendation for the updated cost of roadway construction during the first quarter of fiscal year 2010. The resulting valuation figures will be used for subsequent reports. Future adjustments will be made as needed based upon reassessment of conditions.
- C. We concur. The Finance Department will schedule meetings with the Capital Projects Department to discuss quarterly reporting of significant capital projects with multiple completion dates.

Hillsborough County, Florida

Schedule of Findings and Questioned Costs (continued)

**Part III – Federal Award and State Financial Assistance Findings and
Questioned Costs Section**

This section identifies significant deficiencies, material weaknesses, and instances of noncompliance, including questioned costs, as well as any abuse findings involving awards that are material to a major program related to the audit of major federal programs and state financial assistance projects as required to be reported by OMB Circular A-133 Section .510, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the Auditor General*.

We did not identify any significant deficiencies, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, or abuse involving awards that are material to a major federal program or state financial assistance project that are required to be reported by OMB Circular A-133 Section .510, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the Auditor General*.

Hillsborough County, Florida

Summary Schedule of Prior Audit Findings

Finding# 08-03

Program: Help America Vote Act Requirements Payments (CFDA No. 90.401)

Requirement: Allowable Costs and Reporting

Condition: Funds should be held in a separate account and be solely used in accordance with approved plan. Allowable costs determined by requirements consistent with Federal Help America Vote Act of 2002.
The agreements also require annual reporting of actual expenditures by each December 31.

Questioned costs: Unable to be determined in fiscal 2008

Recommendation: We recommend that management review and strengthen internal controls over compliance, and determine appropriate procedures for compiling supporting documentation for reporting to grantor agencies.

Current year status: Implemented. The Supervisor of Elections (SOE) and the Florida Department of State conducted a financial analysis and determined the questioned costs to be approximately \$400,000, but identified approximately \$304,000 in allowable costs. The Florida Department of State has recommended that the SOE transfer approximately \$96,000 from the SOE's general fund into the SOE's Help America Vote Act grant account, which was executed and recorded during fiscal 2009. Subsequent to year-end, the SOE received notification from the Florida Department of State and the U.S. Election Assistance Commission that the actions are appropriate.

This page left blank intentionally.

Report of Independent Certified Public Accountants on
Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards*

The Distinguished Members of the
Board of County Commissioners
Honorable Pat Frank, Clerk of the Circuit Court
Honorable Rob Turner, Property Appraiser
Honorable David Gee, Sheriff
Honorable Earl Lennard, Supervisor of Elections
Honorable Doug Belden, Tax Collector
Hillsborough County, Florida

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Hillsborough County, Florida (the County), as of and for the year ended September 30, 2009, which collectively comprise the County's basic financial statements and have issued our report thereon dated February 12, 2010. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the aggregate discretely presented component units, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those other auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

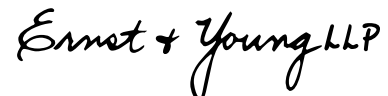

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as item 09-01, which we consider to be a significant deficiency in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the County's response, and accordingly, we express no opinion on it.

We noted certain matters that we reported to management of the County in a separate letter dated February 12, 2010. This report is intended solely for the information and use of the County's management and officials, federal and state awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Management Letter on Internal Control and State Reporting Requirements

The Board of County Commissioners
Hillsborough County, Florida

In planning and performing our audit of the basic financial statements of Hillsborough County, Florida (the County), as of and for the year ended September 30, 2009, in accordance with auditing standards generally accepted in the United States, we considered its internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We conducted our audit in accordance with United States generally accepted auditing standards, and *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and Section 215.97, *Florida Statutes*. We have issued our Report of Independent Certified Public Accountants on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance With *Government Auditing Standards*, which is dated February 12, 2010. Disclosures in that report should be considered in conjunction with this management letter, as findings are not duplicated in this management letter.

Additionally, our audit was conducted in accordance with the provisions of Chapter 10.550, *Rules of the Auditor General*, which govern the conduct of local governmental entity audits performed in the State of Florida and require that certain items be addressed in this letter.

Current Year Recommendations

The *Rules of the Auditor General* (Section 10.554(1) (i)3), require that we address in the management letter any findings and recommendations to improve financial management, accounting procedures, and internal controls. During our audit, we noted a matter involving internal control over financial reporting and its operation that we consider to be a significant deficiency as defined above. That recommendation is described in our Report of Independent Certified Public Accountants on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance With *Government Auditing Standards*, and is not duplicated in this management letter.

During our audit, we also noted the following matters involving internal control over financial reporting and its operation that we consider to be control deficiencies, as defined above.

Aging Services

Hillsborough County Department of Aging Services provides essential social and health services to older adults including home delivery of meals and adult day care services. The Department of Aging Services receives federal grant dollars to support these programs. During our testing of federal grants, we noted 4 of the 50 sample participants had discrepancies between the meals served and the number of meals requested for reimbursement. In the aggregate the discrepancies amounted to a difference of seven meals. We also noted for one participant selected in our sample, the number of hours received of adult day care services did not agree to the hours submitted for reimbursement by six hours. We have concluded that these are immaterial instances of noncompliance, however we recommend that the Department of Aging Services implement stronger internal controls to prevent or detect errors in the compilation of data submitted for reimbursement to grantor agencies.

Management's Response:

We concur. The Department of Aging Services will implement stronger internal controls to prevent or detect errors in the compilation of data submitted for reimbursement to grantor agencies.

Affordable Housing Office

The Affordable Housing Office (AHO) administers various programs, including loan programs for single-family and multifamily housing projects. Federal and state grants are received by the AHO to carry out these activities. Making loans and collecting payments is a significant process, and the related income from loan payments are subject to federal and state program requirements. As required by the Code of Federal Regulations, the AHO has responsibility for having a loan origination and servicing system in effect which assures that loans are properly authorized, receivables are properly established, earned income is properly recorded and used, and write-offs of uncollectible amounts are properly authorized.

We noted that the AHO considered engaging a loan servicing company to handle certain loan portfolios in an effort to bring greater efficiency in how loan portfolios are managed. However, it was determined during fiscal 2007 that the process was to remain in-house. We also noted subsequent to year-end, that the AHO is continuing its efforts to more accurately reflect receivables that are due to the County. Specifically, a project to review underlying loan agreements, to identify recipients that have not made required loan repayments, and review past history of activity for proper posting is ongoing.

We recommend that the AHO continue its efforts in establishing more accurate receivables and strengthen internal controls by documenting formal loan management policies and procedures, including the implementation of a financial management and reporting information system.

Management's Response:

Management concurs. The Affordable Housing Department (AHD) is continuing its efforts to establish more accurate fiscal management of receivables with the new loan management software – Down Home Loan Manager. AHD implemented the loan management software over several phases. The final phase was completed on December 8, 2009. AHD has added additional staff to the Fiscal Section with the responsibility of maintaining the database system and has assigned appropriate roles to staff within the section.

AHD is continually developing and revising policies and procedures to ensure accuracy of their receivables. Each loan made through AHD's programs and services shall be administered by the Fiscal section to assure compliance with the terms of each loan agreement. The management and reporting of AHD loans shall include regular monitoring reports that ensure: prompt payments, proper aging of receivables, collections efforts through the County Attorney's Office, compliance with non-financial contract terms, administration of Loan Satisfaction, and other actions necessary to prudently manage AHD's loan portfolio.

Measurement for Pollution Remediation Obligations

On October 1, 2008, the County implemented GASB 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*. This statement requires governmental entities to identify and record a liability for environmental pollution remediation obligations (PRO) in instances where the government determines it is an obligated party under certain criteria. We observed that two incidents meeting the pollution remediation criteria were noted and accrued for related to the assessed pollution contamination. Further, we observe that County management has the proper risk assessment process in place to monitor and respond to such matters. However, we observed that there was limited supporting analysis of the probability available upon audit and a future cash flow outlays chart was not prepared in accordance with the standard.

We recommend that the County strengthen its formal documentation of procedures associated with accounting for these potential obligations, specifically to ensure that the supporting documentation for any such obligations is prepared using the format found in the standard.

Management's Response:

We concur. When conducting the annual survey of pollution remediation obligations, the Finance Department will request that departments with potential obligations provide probability and cash flow charts in the format specified in the accounting standard.

2008 Recommendations

The status of the prior year's recommendations is included in Exhibit A.

Required Disclosures

As required by the *Rules of the Auditor General* (Section 10.554(1)(i)2., the scope of our audit included a review of the provisions of Section 218.415, *Florida Statutes*, regarding the investment of public funds. In connection with our audit, nothing came to our attention that would cause us to believe that the County was not in compliance with Section 218.415, *Florida Statutes*.

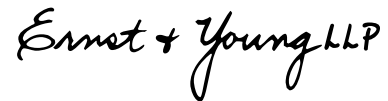

As required by the *Rules of the Auditor General* (Sections 10.554(1)(i)7.c. and 10.556(7), we applied financial condition assessment procedures. It is management's responsibility to monitor the County's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. Our procedures did not identify deteriorating conditions that would be required to be reported under the *Rules of the Auditor General*.

During the course of our audit of the County's basic financial statements, nothing came to our attention that would cause us to believe that the County was in a state of financial emergency, as defined by Section 218.503(1), *Florida Statutes*.

We have reviewed the County's annual financial report filed with the Florida Department of Financial Services as required by Section 218.32(1)(a), *Florida Statutes*, for the fiscal year ended September 30, 2009. We noted no material differences in comparing this information to that of the County's basic financial statements.

As required by *Rules of the Auditor General*, this management letter includes the name or official title and legal authority for the primary government and each component unit of the reporting entity. The Hillsborough County, Florida Board of County Commissioners (the BOCC), was established by the Constitution of the State of Florida, Article VIII, Sections 1 and 6. Additional legal authority was provided by Chapter 125, *Florida Statutes*, and County Ordinance 83-09, a home rule charter. The legal authority for each of the component units of the BOCC is listed in Appendix B.

This report is intended solely for the information and use of the Board of County Commissioners, state and federal agencies, the Florida Auditor General, management, and others within the County and is not intended to be, and should not be, used by anyone other than these specified parties.

Status of 2008's Recommendations

Recommendation	Status
Cash Collections	
<ul style="list-style-type: none"> We recommend that the County strengthen its formal documentation of procedures surrounding the cut-off of cash collections, specifically to ensure that cash received prior to year-end is posted within the proper financial reporting period. Additionally, we recommend that during the closing process the Finance Department review year-end reconciliations for potential cash receipts that were not recorded for financial reporting purposes. 	Implemented.
Affordable Housing	
<ul style="list-style-type: none"> We recommend that the AHO continue its efforts in establishing more accurate receivables and strengthen internal controls by documenting formal loan management policies and procedures, including the implementation of a financial management and reporting information system. 	Comment Repeated.
Procurement	
<ul style="list-style-type: none"> We recommend that the Procurement Department implement a procedure to verify the status of current and future vendors via the EPLS website and include documentation of this verification in each project file as part of compliance activities for procurement, suspension and debarment. This practice will assist in ensuring that vendor suspension, and debarment verification is performed for all projects. 	Implemented.
