Business Rules

Purpose of Report: The CCOC Collection Rate Performance Measure report tracks dollars in the quarter they are assessed and then how well those assessed dollars have been collected over the next five quarters. The five quarters are grouped using the Control Group Ending (CGE) county fiscal year quarter(CQ#)-fiscal year listed in combined column A-B. The initial quarter of the amount assessed is identified by the RPE (Report Period Ending) date in cmbined column C-D.

Adjustments to "Cumulative Collections" Amounts: The cumulative amount of money collected in a given control group ending (CGE) should be adjusted in the reporting period when amounts are collected or later returned by the Court or other provisions of law. This amount will usually only increase from quarter to quarter as money is collected toward the assessed amount. Decreases (returns/refunds) must be explained.

Adjustments to "Amount Assessed": The amount assessed in a given control group ending (CGE) should be adjusted in the reporting period when the original assessments are later adjusted by the Court or other provisions of law. This amount will usually only decrease from quarter to quarter as the assessed fines/fees/court costs/service charges/etc are reduced/forgiven by court order. Increases usually indicate new assessments to cases handled in quarter one of a CGE and must be explained.

NOTES: The report form worksheets will alert when Action Plan information is required because performance standards are not met and/or when explanations are required in the "Additional Notes Related to Collection Issues" area because established business rules for within the control group are not followed.

1. **Action Plan:** If the Collection Rate in quarter five **(Qtr 5)** is below Standard (red numbers on rose background), select a "Reason Code" and write a brief statement in "Actions to Improve" in the green area ONLY.

   a. **Reason Code**: Select the applicable Reason Code from the dropdown menu in the Green cell in column "M" for any quarter that did not meet the required performance level indicated in cell "H8".

The descriptive statements of the Actions to Improve collectively create a Corrective Action Plan (CAP) guideline used to improve future performance levels until the required standard is either met or exceeded and can be sustained. The statements will also support the selection of the "Reason Code" and can possibly have five suggested components, when applicable, that address specific .

2. Listed below are the five suggested components that might be included to the most efficient extent possible in the Actions to Improve statements.

   SPECIFIC: Specific description of the issue that caused the standard to be missed and the Reason Code to be selected.
   MEASURABLE: Quantifiable statement of the amount of improvement expected to be gained by the end of next reporting period.
   ACHIEVABLE: Numerical statement supporting that the planned improvements are achievable.
   RELEVANT: Statement of how the planned actions to improve dirtectly relate to the isue identified
   TIME-BOUND: The realisticly earliest quarter the planned improvement will be realized and standard met.

4. **Additional Notes Related to Collection Issues:** Include a brief explanation when either of the following conditions occur that are not consistent with the Collection Report Business Rules.

   a. Cumulative Collections number has **Decreased** from the previous quarter in the same CGE (font color for amount will change to **RED**)

   b. The Amount Assessed number has **Increased** from the previous quarter in the same CGE (font color for amount will change to **RED**)

5. To see Circuit Criminal Collection Rate LESS Drug Trafficking assessment and collection dollars, please see Drug Trafficking tab/page.

Business Rules

Purpose of Report: The CCOC Collection Rate Performance Measure report tracks dollars in the quarter they are assessed and then how well those assessed dollars have been collected over the next five quarters. The five quarters are grouped using the Control Group Ending (CGE) county fiscal year quarter(CQ#)-fiscal year listed in combined column A-B. The initial quarter of the amount assessed is identified by the RPE (Report Period Ending) date in cmbined column C-D.

Adjustments to "Cumulative Collections" Amounts: The cumulative amount of money collected in a given control group ending (CGE) should be adjusted in the reporting period when amounts are collected or later returned by the Court or other provisions of law. This amount will usually only increase from quarter to quarter as money is collected toward the assessed amount. Decreases (returns/refunds) must be explained.

Adjustments to "Amount Assessed": The amount assessed in a given control group ending (CGE) should be adjusted in the reporting period when the original assessments are later adjusted by the Court or other provisions of law. This amount will usually only decrease from quarter to quarter as the assessed fines/fees/court costs/service charges/etc are reduced/forgiven by court order. Increases usually indicate new assessments to cases handled in quarter one of a CGE and must be explained.

NOTES: The report form worksheets will alert when Action Plan information is required because performance standards are not met and/or when explanations are required in the "Additional Notes Related to Collection Issues" area because established business rules for within the control group are not followed.

1. **Action Plan:** If the Collection Rate in quarter five **(Qtr 5)** is below Standard (red numbers on rose background), select a "Reason Code" and write a brief statement in "Actions to Improve" in the green area ONLY.

Purpose of Report: The CCOC Collection Rate Performance Measure report tracks dollars in the quarter they are assessed and then how well those assessed dollars have been collected over the next five quarters. The five quarters are grouped using the Control Group Ending (CGE) county fiscal year quarter(CQ#)-fiscal year listed in combined column A-B. The initial quarter of the amount assessed is identified by the RPE (Report Period Ending) date in cmbined column C-D.

Adjustments to "Cumulative Collections" Amounts: The cumulative amount of money collected in a given control group ending (CGE) should be adjusted in the reporting period when amounts are collected or later returned by the Court or other provisions of law. This amount will usually only increase from quarter to quarter as money is collected toward the assessed amount. Decreases (returns/refunds) must be explained.

Adjustments to "Amount Assessed": The amount assessed in a given control group ending (CGE) should be adjusted in the reporting period when the original assessments are later adjusted by the Court or other provisions of law. This amount will usually only decrease from quarter to quarter as the assessed fines/fees/court costs/service charges/etc are reduced/forgiven by court order. Increases usually indicate new assessments to cases handled in quarter one of a CGE and must be explained.

NOTES: The report form worksheets will alert when Action Plan information is required because performance standards are not met and/or when explanations are required in the "Additional Notes Related to Collection Issues" area because established business rules for within the control group are not followed.

Purpose of Report: The CCOC Collection Rate Performance Measure report tracks dollars in the quarter they are assessed and then how well those assessed dollars have been collected over the next five quarters. The five quarters are grouped using the Control Group Ending (CGE) county fiscal year quarter(CQ#)-fiscal year listed in combined column A-B. The initial quarter of the amount assessed is identified by the RPE (Report Period Ending) date in cmbined column C-D.

Adjustments to "Cumulative Collections" Amounts: The cumulative amount of money collected in a given control group ending (CGE) should be adjusted in the reporting period when amounts are collected or later returned by the Court or other provisions of law. This amount will usually only increase from quarter to quarter as money is collected toward the assessed amount. Decreases (returns/refunds) must be explained.

Adjustments to "Amount Assessed": The amount assessed in a given control group ending (CGE) should be adjusted in the reporting period when the original assessments are later adjusted by the Court or other provisions of law. This amount will usually only decrease from quarter to quarter as the assessed fines/fees/court costs/service charges/etc are reduced/forgiven by court order. Increases usually indicate new assessments to cases handled in quarter one of a CGE and must be explained.
